# PROLOGUE

Deep in the southernmost region of the kingdom of Hyrule lies a village by the name of Ordon. Cradled in the scenic beauty of pristine farmland, the villagers of Ordon make a living by raising livestock. Among the villagers is a boy known as the most skillful rider in all the land. A boy

who, it is expected, will one day take over the responsibility of leading Ordon as the village chief. His name is Link...

Trusted and liked by all the villagers, Link is especially loved by the other children of Ordon, among whom he holds unofficial status as the leader of the pack. Link spends his days as a ranch hand and learns the ways of the sword from the village's lone swordsman, Rusl, in his spare time. He often displays his newly honed skills to the village youths, which makes him even more popular.

One day Link is showing off his swordsmanship as usual, when a monkey appears. "Hey! That's the monkey that's been causing trouble all over the village! Let's get him," cry the children. They run after the monkey into the forest. Link rushes into the heart of the woods after them and is shocked to find that the dark thickets are teeming with countless monsters. After fighting his way through their ranks, Link rescues the child and the monkey from the cage where they are held captive.

Until now, the forest had always been a safe place...

The next day, after much encouragement by Rusl, Link prepares to set out and deliver the village's tribute to Hyrule Castle. Having never visited the castle before, Link is in high spirits as he prepares for his journey, but when his childhood friend Ilia notices a wound on Epona's haunch, she gives Link an earful for being so careless with his horse. In a huff, Ilia leads Epona away.

Link tracks down Epona and Ilia at the mystical spring nearby and attempts to apologize for injuring Epona. But no matter how many times he says he's sorry, Ilia simply refuses to forgive Link. Then Colin, a young boy from the village who idolizes Link, steps forward to mediate the situation. Thanks to Colin's explanation, Link is finally able to get Ilia to drop her guard and talk with him.

Having warmed back up, Ilia tells Link, "Come back safely, and don't do anything reckless!"

Just then...

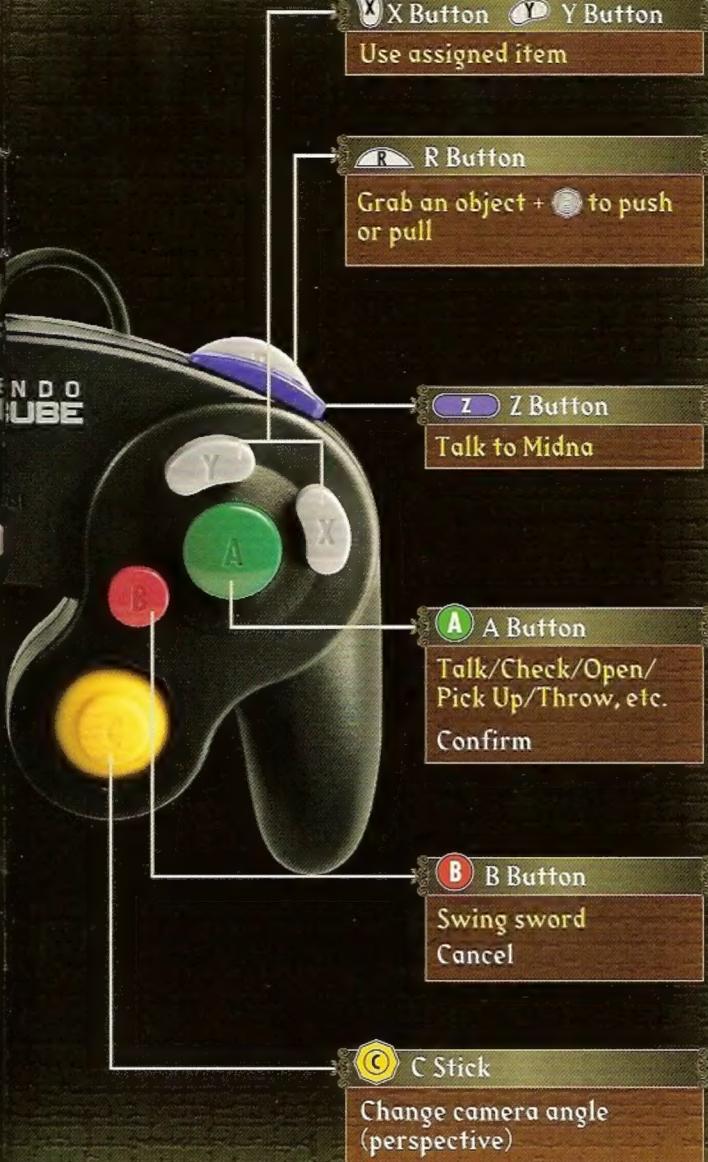

A monster astride a huge boar comes crashing out of the forest. The fearsome monster and its mount break through the gate to the spring and attack the youths.

Caught off guard by the sudden assault, Link is helpless to stop the monster from delivering a blow that renders him unconscious. Through the fog of his half-conscious mind, Link watches Colin and Ilia get swept off by the monster...

## CLUES FOR YOUR QUEST

Here are a few hints to help you along your way. If you find yourself stuck at a puzzle or have trouble defeating a strong enemy, look here for a little advice.

**Q** I'm stuck here and I'm not sure where to go. What should I do?

**A** Are you sure you didn't overlook something? Check all over the area thoroughly for doors, unopened treasure chests, and new paths. Also, Midna often gives hints if you press **Z**.

There are lots of ways to use the items you have.

Have you tried using that new item you just got? Try using it in a lot of ways, usual and unusual. You may be surprised at the results.

As for weapon items...

Items that you can use to attack enemies, like the boomerang, aren't just there for fighting. Try to master all the uses of these items by adapting them to your situation and using them wherever it seems possible.

Gather information...

Talk to everyone! If you are transformed into a beast, use your Sense → p<sup>24</sup> ability and talk to nearby animals to gather information.

**Q** What advantage does L-targeting offer me?

**A** By L-targeting an opponent, you can maneuver around in battle without losing sight of your enemy. You'll find it especially useful against quick or flying opponents. You can also speak to people from a distance by L-targeting them.

**Q** I can't take down this boss... What should I do?

**A** Each boss has its own special characteristics. While dodging incoming attacks, take some time to think up a fighting strategy that is appropriate for the boss. Don't forget to search the immediate area for hearts when your life gauge gets low.

**Q** How do I effectively use Ooccoo?

**A** Use Ooccoo in a dungeon and you'll be able to travel back and forth from the outside world with ease. If you are having trouble finding hearts in a dungeon or you run out of oil for your lantern, try using Ooccoo to leave the dungeon so you can refresh your supplies and life gauge.

**Q** I'm always running out of hearts... What should I do?

**A** You can increase the capacity of your life gauge by collecting Heart Containers and Pieces of Heart. Each time you defeat a dungeon boss, you will gain one more Heart Container. Pieces of Heart, on the other hand, are hidden all over the world. Search the dungeons and fields for stray Pieces of Heart, and remember that you can even win a few in certain minigames.

**Q** What do I do if I get lost in a dungeon?

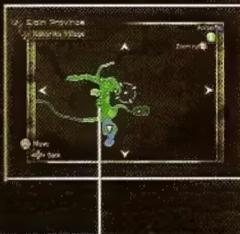

**A** It's really easy to lose your way in dungeons. If you get lost, take a look at your map and plan a route to travel. If you manage to find a compass, you'll become able to see the whereabouts of the boss and treasure chests within the dungeon. That information should help you get through some of the more puzzling situations you'll face.

**Q** I can't find the Tears of Light...

**A** Take a good, long look at the map. Lots of information, including where the Tears of Light are located, is recorded on the map. If you ever get lost, the first thing you should do is take out that map.

#### Tears of Light Locations

**Q** What about skills?

**A** As you progress through the game, you'll occasionally encounter a character who will teach you advanced sword skills. Master these skills and remember to employ them against strong foes.
